

I am writing to you about the proposed rule enactment giving LPFM priority over FM translator service. I and many others in my local community listen to the radio station known as K-LOVE via the FM translator and want very much to continue. K-LOVE supports wholesome values and serves hundreds of thousands of listeners all over the country. K-LOVE does great service to our local community by offering free community service announcements. These announcements are a terrific way to get the word out and to learn about important upcoming events that we would not hear of otherwise. These events help to improve our small, but growing, military community and further its development. The service provided by K-LOVE is in the public's best interest because it broadcasts positive and encouraging messages that give people a desire to be more friendly, patient and kinder to each other. The free community service announcements that K-LOVE offers are open to anyone and are available for everyone. I feel our community would be gravely effected if K-LOVE were to be displaced by a LPFM broadcast. I urge you not allow the Low Power FM (LPFM) stations to take priority over current FM translator service. With many thanks, Suzanne Mayhorn
